

The School of Dentistry

The **Mission** of the EUC School of Dentistry is:

- to educate dental students, graduate students and postdoctoral fellows in accordance with the highest professional standards;
- to train competent and caring dentists to practice safe and comprehensive dental care of the highest standard;
- to identify and answer fundamental questions in the mechanisms, prevention and treatment of oral diseases and in dental care delivery.

The **Vision** of the EUC School of Dentistry is to produce leaders in Dentistry who will apply the foundation of a broad dental education to improve oral health at a national and international level through the delivery of safe dental care, research and education.

The core **Values** of the School of Dentistry are:

Excellence in the conduct of education, research, patient care and community engagement

Integrity in respecting the patients and those accompanying them as well as the students and health professionals and acting with honesty and accountability

Collaboration fostering creative partnerships with open communication

Trust loyalty in communicating with honesty to create healthy relationships

Dedication in improving the oral health of the community
